David Shormann has taught Saxon Math courses for many years. When he decided to create his own math courses, he drew upon some of John Saxon's best ideas and combined those with his own ideas to create high school level courses: Algebra 1, Algebra 2, and Precalculus. As in the original Saxon Math series, Shormann Math integrates geometry with algebra within courses titled Algebra 1 and Algebra 2.

[IM 9–12 Math™ v. 1 | Illustrative Mathematics](#)

Algebra I and algebra II, along with geometry, form the basic high school mathematics curriculum in the United States. The courses are highly interrelated, with algebra II building upon knowledge accumulated in algebra I. Each course takes one academic year to complete. Algebra I Topics . Students typically take algebra I in their first year of high school, so the course serves as an ...
