The third edition of the Cohen Atlas is fully redesigned and expanded to reflect the state of the art and science in periodontic surgery. Each procedure is presented in a step-by-step methodology, and is supplemented by clinical case examples now enhanced with thousands of full-color images and illustrations. The new edition is more hefty, with new chapters and as with earlier editions Dr. Cohen succinctly outlines the advantages, disadvantages, and related challenges for each procedure. The ...

[Atlas of Cosmetic and Reconstructive Periodontal Surgery \(??\)](#)

Preface to the Second Edition This surgical atlas was originally published with the intent of being the most complete periodontal surgical atlas and in 1988 it was. Since that time, there have been many important advances. The emphasis in periodontics has clearly shifted toward reconstructive periodontics. Guided tissue regeneration, biomechanical root preparation, predictable bone regeneration procedures, and cosmetic root coverage have made reconstructive periodontics a reality. This ...
